

BAdI	Description	EhP
BADI_WCM_RIWC0010_001	You can use this BAdI to extend the menu for multilevel list processing.	5
BADI_WCM_RIWC0010_002	You can use this BAdI to extend multilevel list processing.	5
BADI_WCM_RIWC0016_001	You can use this BAdI to extend the menu for list editing to automatically generate WCM objects.	5
BADI_WCM_RIWC0016_002	You can use this BAdI to extend the automatic creation of WCM objects.	5
BADI_WCM_RIWC0020_001	You can use this BAdI to extend the menu for list processing for the worklist for mobile processing of operational lists.	5
BADI_WCM_RIWC0020_002	You can use this BAdI to extend list processing for the worklist for mobile processing of operational lists.	5
BADI_WCM_RIWCOR01_001	You can use this BAdI to extend the menu for assigning orders.	5
BADI_WCM_RIWCOR01_002	You can use this BAdI to extend list processing for assigning orders.	5
BADI_WCM_RIWCWA01_002	You can use this BAdI to extend the menu for assigning applications.	5
BADI_WCM_RIWCWA01_001	You can use this BAdI to extend list processing for assigning applications.	5
BADI_WCM_RIWCWA02_001	You can use this BAdI to extend the menu for list processing of applications.	5
BADI_WCM_RIWCWA02_002	You can use this BAdI to extend list processing for applications.	5
BADI_WCM_RIWCWD01_001	You can use this BAdI to extend the menu for assigning Operational WCDs.	5
BADI_WCM_RIWCWD01_002	You can use this BAdI to extend list processing for assigning Operational WCDs.	5
BADI_WCM_RIWCWD02_001	You can use this BAdI to extend the menu for list processing of work clearance documents.	5
BADI_WCM_RIWCWD02_002	You can use this BAdI to extend list processing for work clearance documents.	5
BADI_WCM_RIWCWI04_001	You can use this BAdI to extend the menu for selecting work clearance documents.	5
BADI_WCM_RIWCWI04_002	You can use this BAdI to extend list processing for selecting work clearance documents.	5
BADI_WCM_RIWCWP01_001	You can use this BAdI to extend the menu for list processing of work permits	5
BADI_WCM_RIWCWP01_002	You can use this BAdI to extend list processing for work permits.	5
BADI_WCM_RIWCWV01_001	You can use this BAdI to extend the menu for list processing of lineups.	5
BADI_WCM_RIWCWV01_002	You can use this BAdI to extend list processing for lineups.	5
BADI_WCM_RIWCWW01_001	You can use this BAdI to extend the menu for assigning work approvals	5

BAdI	Description	EhP
BADI_WCM_RIWCWW01_002	You can use this BAdI to extend list processing for assigning work approvals.	5
BADI_WCM_RIWCWW02_001	You can use this BAdI to extend the menu for list processing of work approvals.	5
BADI_WCM_RIWCWW02_002	You can use this BAdI to extend list processing for work approvals.	5

BAdI	Method	Description	EhP
BADI_WCM_RIWC0010_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWC0010_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWC0016_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWC0016_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWC0016_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWC0016_002	AUTHORITY_CHECK	You can use this method to check the authorization.	5
BADI_WCM_RIWC0016_002	DATA_REDUCE	You can use this method to further restrict the data for the automatic creation of WCM objects.	5
BADI_WCM_RIWC0016_002	DELETE_CHECK	You can use this method to check whether entries can be deleted.	5
BADI_WCM_RIWC0016_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWC0016_002	GENERATE_CHECK	You can use this method to check whether WCM objects can be generated.	5
BADI_WCM_RIWC0016_002	OPWC_SELECTION_REDUCE	You can use this method to further restrict the selection of proposals for the automatic creation of WCM objects.	5
BADI_WCM_RIWC0016_002	PROPOSAL_SELECTION_REDUCE	You can use this method to restrict the selection of proposals for the automatic creation of WCM objects.	5
BADI_WCM_RIWC0016_002	PROPOSE_CHECK	You can use this method to check whether an proposal can be adopted.	5
BADI_WCM_RIWC0016_002	TEMPLATE_SELECTION_REDUCE	You can use this method to restrict the selection of templates for the automatic creation of WCM objects.	5
BADI_WCM_RIWC0016_002	WAPI_SELECTION_REDUCE	You can use this method to further restrict the selection of templates (applications) for the automatic creation of WCM objects.	5
BADI_WCM_RIWC0016_002	WCD_SELECTION_REDUCE	You can use this method to further restrict the selection of templates (work clearance documents) for the automatic creation of WCM objects.	5
BADI_WCM_RIWC0020_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWC0020_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWC0020_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWC0020_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCOR01_001	FCODE_EXECUTE	You can use this method to execute a function code.	5

BAdI	Method	Description	EhP
BADI_WCM_RIWCOR01_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCOR01_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWCOR01_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCWA01_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWCWA01_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCWA01_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWCWA01_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCWA02_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWCWA02_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCWA02_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWCWA02_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCWD01_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWCWD01_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCWD01_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWCWD01_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCWD02_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWCWD02_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCWD02_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWCWD02_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCWI04_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWCWI04_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCWI04_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5

BAdI	Method	Description	EhP
BADI_WCM_RIWCWI04_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCWP01_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWCWP01_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCWP01_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWCWP01_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCWV01_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWCWV01_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCWV01_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWCWV01_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCWW01_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWCWW01_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCWW01_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWCWW01_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
BADI_WCM_RIWCWW02_001	FCODE_EXECUTE	You can use this method to execute a function code.	5
BADI_WCM_RIWCWW02_002	FCODE_DEACTIVATE	You can use this method to deactivate function codes.	5
BADI_WCM_RIWCWW02_002	ALV_TABLES_GET	You can use this method to change the output attributes of additional fields in list processing, such as positioning, output options for the column, and layout of the column contents.	5
BADI_WCM_RIWCWW02_002	APPEND_UPDATE	You can use this method to fill additional fields in lists.	5
